## Yungaburra Heritage Village

Established 1890

PO Box 164, Yungaburra Q 4884

Yungaburra is a tranquil, picturesque village situated 720 metres (2400 ft) above sea level. The lower temperature in summer with "natural air conditioning" makes it a wonderful escape from the humid coastal temperatures. In winter the cool but mild climate and crackling fires make it an ideal holiday destination for those wanting to experience the ultimate lifestyle.

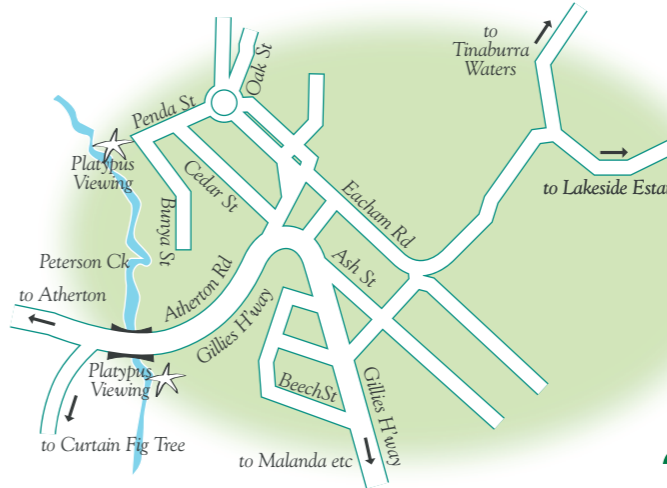

In fact, the village has been a preferred holiday destination since the early 1900s. Visitors are lured back time and again to experience the charm of a village that has existed largely unchanged, with many of the original buildings still in existence.

Yungaburra is nestled in a pocket of open rainforest, where the surrounding countryside has been influenced and shaped by many volcanoes now extinct. The result is stunning, with many outstandingly beautiful natural attractions such as crater lakes, waterfalls and World Heritage rainforest.

The Yungaburra area offers a wonderful base for your holiday. There are no fees to view the wonders of nature which are all within easy reach of the village. The accommodation ranges from budget to 5 star, our restaurants are superb, offering a range of cuisine and you will find the shopping to be varied and exciting!

We invite you to visit Yungaburra, with the ultimate lifestyle, the perfect climate, "natural air-conditioning" and naturally beautiful!
